

FOUNDATION DAY MESSAGE

27.11.2019

On same day in the year 1965, IRTSA was founded by a group of young Apprentice Mechanics. IRTSA continues to provide strong platform for Rail Engineers | Technical Supervisors working on Indian Railways and has been continuously striving for welfare & upliftment of the category. It has made remarkable achievements during these 54 years and continues to strive to meet challenges before us and to scale bigger heights in the years ahead.

On this occasion I salute all the founder members, office bearers and active members of IRTSA who consistently fought for the common cause with conviction and dedication and faced victimization - especially during the 1974 Strike and at many other occasions at various levels.

I sincerely thank all the Members & office bearers and all others who continue to give their support and cooperation in strengthening the organisation and in pursuing the cause.

I hope that together team IRTSA will scale to new height by converting challenges into opportunities.

On the Foundation day of IRTSA, I extend my warm greetings to all the members of Rail Engineers' | Technical Supervisors' family and wish everyone all the best.

(Harchandan Singh)
General Secretary, IRTSA
