By K.V.RAMESH, Sr.JGS, IRTSA

On February 2017, total number of subscribers for NPS was 1.05 crores and asset under management (AUM) is Rs. 1.65 lakh crores. Central & State Government employees who constitute 48.5% of subscribers have the share of 88.3% in the value of AUM. All other sectors which constitute 51.5% of subscribers have the 11.7% share in AUM, underlines the significance of contribution of government employees for NPS. While the return from NPS is not an assured one, cost incurred to the NPS subscribers is significantly high, even though initial & annual charges seem to be negligible for individual subscribers. NPS charges nearly Rs.700 crores annually (for the year 2017) in addition to the initial cost of Rs.178 crores and every year the cost will increase exponentially. A contribution in NPS is being charged by CRA, POP, PFM and by custodian, Charges for Demat/Remat, receipt of shares & SEBI charges are extra. Service tax and other levies, as applicable, will be levied as per the existing tax laws. More than everything else lump sum withdrawal from NPS at any time is taxable.
