## FIXATION OF THE PENSION OF THE EXISTING PENSIONERS

Extracts of Report of Sixth Central Pay Commission. (Page 338, Volume I)

**5.1.47 Fitment benefit to the past pensioners-** The Commission notes that modified parity has already been conceded between pre and post 1/1/1996 pensioners. Further, full neutralization of price rise on or after 1/1/1996 has also been extended to all the pensioners. Accordingly, no further changes in the extant rules are necessary. However, in order to maintain the existing modified parity between present and future retirees, it will be necessary to allow the same fitment benefit as is being recommended for the existing Government employees. **The Commission, accordingly, recommends that all past pensioners should be allowed fitment benefit equal to 40% of the pension excluding the effect of merger of 50% dearness allowance/ dearness relief as pension (in respect of pensioners retiring on or after 1/4/2004) and dearness pension (for other pensioners) respectively.** The increase will be allowed by subsuming the effect of conversion of 50% of dearness relief/ dearness allowance as dearness pension/dearness pay. Consequently, dearness relief at the rate of 74% on pension (excluding the effect of merger) has been taken for the purposes of computing revised pension as on 1/1/2006. This is consistent with the fitment benefit being allowed in case of the existing employees. A table (Annex 5.1.1) showing fixation of the pension of the existing pensioners in the revised dispensation consequent to implementation of the recommendations of this Commission has been prepared and should be used for fixing the revised pension of the existing pensioners.

**The fixation as per this table will be subject to the provision that the revised pension, in no case, shall be lower than fifty percent of the sum of the minimum of the pay in the pay band and the grade pay thereon corresponding to the pre-revised pay scale from which the pensioner had retired. To this extent, a change would need to be allowed from the fitment table**
