

NORTHERN RAILWAY

Central Hospital,
New Delhi.

No. Med/CH/HMIS/2021

Dated : 28.07.2021

NOTICE

Northern Railway Central Hospital is in the process of implementation of HMIS. As per the confirmation given by the implementing agency (RailTel) now the local purchase process is also enabled in Pharmacy module. Therefore, all the doctors are advised to process drugs for all cases through HMIS only. It is noted that drugs are presently prescribed under external drugs on a regular basis, which is not appropriate. Further, pharmacist and persons responsible for processing local purchase process should do same in HMIS and which is also rolled-out by Railtel. For any further clarifications, the field engineers from Railtel are available in the hospital and may be consulted on need basis.

In additional process of indenting the material supply across hospitals (Health Units to Central Hospital and vice versa) is also finalized. Therefore, the transaction between CH and assigned Health Units, should be done necessarily through HMIS. Lastly, the registration in NRCH should be done as much as possible through HMIS. In case of patients not having UMID number, temporary registration through HMIS shall be ensured. This is also desired by GM/NR. UMID self desk has been set up at OPD Block to assist Railway beneficiaries in getting UMID card made from 9.00 hrs to 13.00 hrs.

The above may be implemented strictly.

To all doctors note.

Agam
Medical Director
NRCH-NDLS.
